Valiryo

A letter from our founder

Since Valiryo was launched in 2014, the Valiryo family is ever growing. Our constant strive to improve and all the efforts to offer the most developed product on the market have borne fruit. Today we are proud to say that Valiryo is now recognized and enjoyed in many countries across the globe.

We believe that this success is not least due to the great versatility of our product. May it be by (re)gaining privacy, comfort or pleasure after showering, the opportunity to pioneer with state of the art technology or the proactive contribution to more efficiency and sustainability - the Valiryo Body Dryer manages to create a very own use case for any individual.

With the Valiryo Body Dryer we developed a highly sophisticated and efficient full-body drying device that combines the aspects of luxury, practicability and sustainability in an unprecedented manner. On the following pages, we would like to guide you through our product and help you finding your very own use case. Regardless if you're a private household looking to ease or enhance your after-shower-experience or a business aiming at maximizing your customers satisfaction, this entirely new and unique feeling of health and wellness will help you achieve that goal.

To us and our customers the Valiryo is more than a product, more than a sophisticated piece of technology. It´s a one of a kind experience created to **empower people**.

Ion Esandi Mateo

The Managing Director of Valiryo

Wellness

WITHIN EVERYONE'S REACH

Make a difference – for yourself or your clients.

Valiryo features a **pioneering and state of the art technology**, developed to improve our daily lives in many ways.

A product of great versatility.

The Valiryo Body Dryer is a product of great versatility both in terms of its use cases and the people that can benefit from it. Regardless of your objective or your responsibility - Valiryo could be your solution.

HOTELS

Novelty and comfort make the difference.

The hospitality sector is constantly striving to set new standards by improving the comfort of its guests. Valiryo, being innovative, elegant and easy to install, is a highly appealing accessory and provides considerable economic and environmental savings over time.

SPAS

The missing piece in the wellness puzzle.

Sauna, jacuzzi, steam bath .. either way, Valiryo is the perfect finish to any wellness journey. The sheer novelty and unprecedented wellness experience make it an undeniably attractive product for this sector.

GYMS

A unique selling point.

The gym and fitness market, nowadays, is highly competitive. Being able to refer to innovative and high-quality equipment such as Valiryo might not only enhance your member's experience per se, but also differentiates you from your competition.

PRIVATE HOUSEHOLDS

Enhancing your everyday life.

While being a neat and elegant eye-catcher in every modern bathroom, Valiryo enables the user to dry himself in the space of minutes - without having to leave the shower cabin. Besides, there's no need for any regular maintenance.

CARE HOMES AND HOSPITALS

Making life a bit easier again.

Valiryo provides intimacy and independence to people incapable of properly drying themselves due to age or disability. Moreover, it increases safety as there is no need to crouch down or make demanding movements in wet areas of the bathroom anymore.

PARTNERSHIPS

A new and one-of-a-kind accessory.

Architects, interior designers, decorators and other professionals can now count on Valiryo to enhance the satisfaction of their clients with an innovative and luxurious product that practically fits any modern interior style.

drying device**

REVOLUTIONISING
OUR WAY OF DRYING

The Valiryo Body Dryer

More than just hands-free drying.

While Valiryo was primarily designed to dry our bodies in a **natural** and **pleasant** way, there are various additional benefits coming along with it.

CONVENIENT

Replaces the tiring and skin-damaging process of manual drying.

HYGIENIC

Protects your body from harmful germs in towels.

RELAXING

Promotes muscular blood flow and relaxes both your body and your mind.

ECOLOGICAL

Saves water & electricity compared to the use of towels.

SUPPORTIVE

Helps and protects those challenged or unable to dry themselves.

SIMPLE

There is no need for any regular maintenance, Valiryo is easy to install and even easier to use.

**Product specifics
& technical
information**

Valiryo combines a set of unique characteristics.

PATENTED AIR DIFFUSION TECHNOLOGY

Developed exclusively by the Valiryo engineering team, ours is the only technology in the market providing a uniform flow of air with respect to temperature and intensity – from the upper- to the lowermost of the 27 air vents.

S-SHAPED FORM FOR EFFICIENT DRYING

The s-shaped form guarantees a smooth and even drying from head to toe - without the need for inconvenient movements on wet ground.

ADJUSTABLE TEMPERATURE AND INTENSITY

You can choose between 16 different combinations of air temperature (up to 32°C above room temperature) and intensity, making it a customized feel-good experience after each and every shower.

SANITARY & ANTI-BACTERIAL

Not only allows Valiryo for a germ-free drying process, it also ensures a softer and more hydrated skin after only a few applications. Moreover, it features a silver ion technology that has an anti-bacterial effect.

EFFICIENT POWER PLANT

Valiryo makes use of a highly efficient electrical engine that is located at the top of the device, providing for a powerful air stream in an economic and ecological manner

MOTION SENSOR FOR FULL AUTONOMY

Optionally, you can make use of the integrated motion sensor. Valiryo will then turn itself on as soon as you stand in front of it and turn itself off when you leave, respectively.

WATER RESISTANT AND VANDAL-PROOF

Valiryo can easily be installed both inside and outside the shower cabin, as it is completely water resistant and IP56-protected. Moreover, the processed material is highly durable and therefore appropriate for public use.

NO REGULAR MAINTENANCE REQUIRED

Simplicity was a key element when we designed Valiryo. Hence, there is no need for any regular maintenance, cleaning or replacement of components required.

Technical Data

- N° of air vents¹: **27**
- Air speed: **up to 100 km/h**
- Operating temperature²: **10 - 40 °C**
- Drying time: **~ 3 minutes**
- Anti-bacterial treatment: **silver ions**
- Dimensions: **218 cm x 29,5 cm x 2,8 cm**
- Weight: **9,8 kg**
- Protection rating: **IP56**
- Engine speed: **5000 rpm**
- Voltage: **230-240 V; 50-60 Hz**
- Amperage: **12 A**
- Power consumption: **2800 watt**

¹ Variation in temperature and speed between upper and lower vents: < 2%

² Up to 32 °C above the ambient air temperature.

**An innovative &
committed company**

Our virtues and values

The Valiryo Body Dryer is the flagship project and launch of an innovative company highly committed to the environment, personal well-being and universal accessibility.

R&D+INNOVATION

Valiryo has been exclusively developed in Europe by a team of internal engineers in cooperation with leading technological and electronic development centres in Spain.

SOCIAL DEDICATION

A commitment to social causes has always been our driving force and we are proud to have received numerous awards in relation to 'Social undertakings with the greatest growth potential'. At the moment, we are working together with two Special Employment Centres geared to generating job opportunities for people with intellectually and physically disadvantaged people.

LOCAL MANUFACTURE

We believe in highest quality as one of our company's key values. Valiryo is manufactured exclusively in Europe and the result of joint efforts of leading specialised companies in Spain.

GLOBAL ACCESSIBILITY

Valiryo has been designed for use throughout the globe and, as such, has been patented and certified in compliance with the most strict global operating and safety standards.

INSTITUTIONAL SUPPORT

Valiryo has enjoyed financial support of ENISA, a public entity operating under the Ministry of Industry that actively participates in the financing of viable and innovative business projects. Furthermore, our innovative design and growth potential secured us the backing of ICEX NEXT.

Our customer commitment

We ...

- Provide a 2-year guarantee for all manufacturing defects.
- Provide the shortest possible delivery times agreed upon.
- Keep our clients informed on orders up to the delivery date.
- Will always respect and consider our customers' feedback.
- Will continuously strive to provide the best product & service possible.
