ABOUT THE PROJECT - MIGRANT & ETHNIC MINORITY PEACE BUILDERS IN NI

The project seeks to develop the scope for diverse communities to have a meaningful role in Northern Irish peacebuilding work, through capacity-building and networking opportunities for lived-experience leaders from migrant and minority ethnic communities. These events will enable participants to share their experiences of living in Northern Ireland, develop the skills involved in peacebuilding, and network with community activists, peacebuilders, and decision-makers.

Participation in this event is reserved exclusively for individuals who have lived experience as members of migrant and/or ethnic minority communities residing in Northern Ireland
