trust

“There is a lot that cannot be explained, but nothing that cannot happen.”

A New Life

Many people have experienced this already: Pain, worries, hardships, and anxieties fall away, and a completely new feeling of strength, ease, confidence, and joy arises.

Quotes from Success Reports:

“Today I am completely free of all symptoms.”

“Through the teaching of Bruno Gröning, I have rediscovered my zest for life again.”

“The more I got into the habit of living according to Bruno Gröning’s simple rules for life, the easier life became for me.”

“I have learned to love life.”

“I live life more fully and am just very happy.”

Healing from Bulimia

“Three weeks after the introductory lecture, I vomited as usual and then experienced very strong abdominal pain. I knew that a healing was taking place. But of what? Half an hour later, the pain had gone completely. A new feeling of being alive and great happiness filled my body. Only weeks later did I notice that I had not had any more bulimia attacks for quite a while. This is when I finally realized that I had been healed of bulimia.”

Help and Healing

Many people experience enormous distress: Incurable diseases, mental disorders, addictions and dependencies, lack of energy, anxiety and worries. More and more people are searching for a way out, seeking help and healing.

It was the same in 1949: Overnight, into the public eye came a man described by many as a miracle healer, to whom hordes of suffering people thronged, seeking help.

Bruno Gröning (1906-1959) was an unassuming man – not a doctor, and not an academic. He had an intuitive knowledge of the ‘life force’ and knew

Healing from asthma

“For 12 years, I had more and more asthma attacks. When lying flat, I felt like I was going to suffocate. In March of 2006, I saw the documentary film about Bruno Gröning.

While watching it, I felt a tightness in my chest. At the same time, I noticed tingling and a feeling of warmth throughout my body. Two weeks later, I realized that I had not been using the asthma inhaler. Since then, I have been free of all breathing problems.”

how people could connect with it and absorb it. This has helped – and continues to help – countless people attain health, inner freedom, ease, and joy in life.

ON THE SPIRITUAL PATH

In the Bruno Gröning Circle of Friends one still hears of many healings – even of so-called incurable diseases. Doctors and other health professionals of the Medical-Scientific Group examine and document the reports of success.

These healings have nothing to do with treatment or therapies. They occurred, and continue to occur, on the spiritual path: People regain belief in their own health, thereby opening themselves to the effect of the divine healing power and life force.

In addition to the healing of diseases, many Friends also report that they have been healed of addictions, or have received help in various life

Healing from chronic back pain due to several slipped discs

“My posture was completely crooked. I had to wear an orthopedic corset. In August 2005, when the pain had become unbearable, I attended an Information Lecture. At a conference of the Circle of Friends in April of 2006, I felt an indescribable sensation. Immediately afterwards, I could take off the corset, and this good feeling gave me the power to believe. Since June of 2006, I have been free of the pain that had lasted for 19 years. I feel reborn!”

crises, emergencies, or when confronted by blows of fate.

INTERNATIONAL COMMUNITY

What started in the 1950s with Bruno Gröning, has since developed into a global ‘Circle of Friends’, which is now active in charitable work in more than 130 countries. It is one of the largest organizations in the world for healing on the spiritual path. This international community has no religious affiliations and is sustained solely by voluntary work and donations.

Bruno Gröning said, “It cannot be stopped. Healing will take place all over the world.”

Healing from lifelong depression

“The depression, anxiety, and panic attacks became so bad, that I could not handle it anymore. So I planned my suicide for July 1st, 2007. One day before this, a friend told me about a documentary film about Bruno Gröning that was to be shown on July 1st. During the film, I cried and cried. Since then, the agony of the past has disappeared. I am deeply grateful that I have gotten my life back.”
